EDUCATION

- Cherkasy National University
  Computer Science
  2021 - 2022

- Mate academy
  Full-stack course
  2023 - 2025

SKILLS

- HTML/CSS/SASS/Bulma/Bootstrap
- JavaScript/Typescript
- React/Redux
- NodeJs/Express
- PostgreSQL/Sequelize
- Rest APi/Websocket

CERTIFICATES

Full-stack course certificate from Mate Academy

Web-design course certificate Cherkassy

EXPERIENCE

Fullstack developer | From 2023 | Freelance, Leetcode, Codewars

Frontend *(HTML/CSS/SCSS/JS/TS/REACT/REDUX)*

- Developed responsive and dynamic user interfaces using React and TypeScript
- Implemented reusable components and optimized performance for better UX
- Applied BEM methodology for scalable and maintainable CSS architecture
- Ensured cross-browser compatibility and accessibility best practices
- Used state management solutions (e.g., Context API, Redux) for efficient data flow

Projects:

- **Bike Modern** - 🚴 A stylish and responsive landing page for a bike rental service **[Code](#) | [Preview](#)**
- **2048 Reloaded** - 🎮 A modern, responsive remake of the classic 2048 puzzle game **[Code](#) | [Preview](#)**
- **ReactPhone Hub** - 📱 A sleek catalog of mobile devices built with React and dynamic routing **[Code](#) | [Preview](#)**

Backend developer (*NodeJS/EXPRESS/PostgreSQL/Sequelize/Websocket***)**

- Designed and implemented RESTful APIs for scalable web applications
- Developed real-time communication features using WebSocket
- Managed PostgreSQL databases with Sequelize ORM for efficient data handling
- Ensured secure authentication and authorization for user data protection
- Optimized server performance and handled error logging/debugging

Projects:

- **SecureAuth API** - 🔐 A backend authentication API providing secure user authentication and authorization **[Code](#)**
- **ChatSync Api** - 💬 Chat server for handling user messages and connections **[Code](#)**
- **ChatSphere** - 💬 A full-stack chat application with a modern UI and real-time communication **[Code](#)**
